LED technology

Wall or post configuration

Modern design

MINILITE ML06

MINILITE ML 06 was conceived not only to complete the MINILITE series of products but also boost the larger BOLLARD series.

Suitable for modern style residential applications, ML 06 comes with a 3-heights pole for wall mounting both in E27 and LED versions.

MINILITE ML 06 is produced by using DURALIGHTING, a resin material which has been specifically studied and enriched with components used for increasing its resistance to corrosion, more than any other materials already on the market could do.

Made in Italy

Technical information:

- **MATERIAL:** Body in resin material DURALIGHTING, diffuser in polycarbonate UV stabilized
- **LAMP:** - LED MODULE 4,5W - 4000K - 450lm
- E27 max60W
- **INSULATION CLASS:** Double insulation class
- **CONFORMITY:** EN 60598-1:2015 - EN 60598-2-1:1989
DIRECTIVE 2014/35/CE - 2014/30/CE - 2011/65/CE
- **COLOR:** bronze or silver
