Modern design

FUTURA

FUTURA finds its place beside the new last products already launched by Duralite Srl.

Thanks to its modern and conceptual design, it is able to satisfy the different market's demands in the field of residential lighting.

FUTURA is made of DURALIGHTING, a resin material enriched with some components specifically studied for increasing its resistance to corrosion more than any other materials currently on the market.

FUTURA is available with lamp holder E27 - max60W or with LED 9W (4000K) with integrated heat-sink.

WALL MOUNTED

Made in Italy

Technical information:

- **MATERIAL:** Body in resin material DURALIGHTING (high resistance against corrosion), diffuser in polycarbonate anti-UV
- **LAMP:** - LED MODULE 9W - 4000K - 900lm
- E27 max60W
- **INSULATION CLASS:** Double insulation class
- **CONFORMITY:** EN 60598-1:2008 A11:2009 EN 60598-2-1:1989
DIRECTIVE 2006/95/CE - 2004/108/CE
- **DIMENSIONS:** Wall version 260x110x110
Post height 1000mm or 600mm
(available with base or without base)
- **COLOR:** Black or silver
